

7 series

7 Series

The 7 Series makes full-body phototherapy treatment available in homes and offices with limited space.

Daavlin[®]
Let's Be Clear

7 Series

When you choose a 7 Series full-body panel you can trust Daavlin to provide both safety and cutting edge technology! Its slim design accommodates four to twelve lamps. Optional doors enhance efficiency and shorten treatment times.

- 1 Whether your doctor prescribes UVA or Narrowband UVB, the 7 Series is designed to function seamlessly with complements of 4 to 12 lamps.
- 2 The slim lines of the 7 Series make it perfect for the home. With or without doors, your full-body device will fit comfortably in just 3 square feet of floor space.
- 3 To enhance efficiency and shorten treatment times, the optional doors on the 7 Series can add up to six additional lamps. When closed, the doors discreetly cover the fluorescent lamps.
- 4 Daavlin's ClearLink™ touch-screen controller is intuitive to use and ensures that each treatment is delivered safely and effectively.
