Professional Facial Skin Analyzer

# MARK·VU

Professional Facial Skin Analyzer

Mark-Vu, a professional skin analyzer that uses all light sources as LED, delivers the best image.

The filter on / off system using a motor makes a clear image from ultraviolet light and normal light. By using curtains and a rotating plate, it is possible to make a clearer image. It is also easy to use by using the capture button at the top of the equipment.

## LIGHT SOURCE

Patent No. of light sources 10-2010487  
Patent No. of Hidden Wrinkles 10-1981997

Since all four different kinds of lights sources are applied with LED, accurate before & after images can be seen.

Normal

Specular

Polarized

UV

Hidden Wrinkles  
Fine Wrinkles  
Skin Texture  
Radiance

Melanin  
Sebum
